About Weyin Pet

Weyin Pet focuses on pet water fountains and replacement accessories for pet brands, importers and distributors.

We work with selected manufacturing partners to provide stainless-steel, cordless, filter-free and large-capacity models with practical, low-maintenance designs.

From model selection and sampling to private-label packaging and order follow-up, we support buyers throughout the sourcing process. Specifications, compliance documents and inspection requirements are confirmed by model before order.

Quality Confirmation

Key specifications and inspection points agreed before order.

Flexible Order Planning

Sample and MOQ options confirmed for each model.

Private Label Support

Logo, color and packaging options available for selected models.

Responsive Order Follow-Up

Clear updates from quotation through shipment.

Why Work With Weyin Pet

Factory-backed products with practical support from sample to shipment.

01

Easier Product Selection

We help you choose practical pet water fountain models for your market, instead of sending too many similar options.

02

Trial Order Friendly

MOQ is planned by full cartons, with starting quantities from 30 pcs/model depending on carton packing.

03

Clear Branding Options

Logo sticker from 500 pcs/model and laser logo from 1,000 pcs/model, with artwork and packaging details confirmed before production.

04

Reliable Factory Supply

Our selected models come from experienced manufacturing partners familiar with pet water fountain production and retail packing.

05

Pre-Shipment Checking

Before shipment, we can help check product appearance, accessories, packing and basic function, with photos or videos when needed.

06

Practical After-Sales Support

Replacement filters, cleaning accessories and spare pump support can be confirmed by model for long-term product use.

Real Checking Before Shipment

On-Site Product & Packing Check

Product Review | **Packing Check** | **Pre-Shipment Support**

We make product sourcing clearer, easier and safer for small and growing pet product buyers.

Quality Assurance & Reliability Testing

Key product and packaging checks to support stable performance before shipment.

Cable Bend Test

Checks cable durability during daily use.

Noise Level Test

Helps ensure quieter indoor operation.

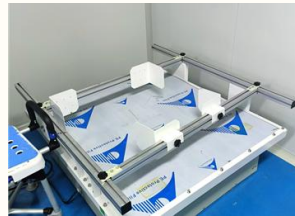

Package Drop Test

Supports better protection during transport.

Pump Life Cycle Test

Checks pump durability for long-term daily use.

Transportation Simulation Test

Helps reduce damage during shipping.

Salt Spray Test

Checks metal surface corrosion resistance.

Quality Confirmation Flow

- 1 Function Check**
Pump, water flow and basic operation
- 2 Reliability Test**
Pump, cable, noise and material checks
- 3 Packing Check**
Inner box, accessories and master carton
- 4 Pre-Shipment Support**
Inspection photos or videos can be provided when needed

Test items, inspection details, spare parts and warranty support can be confirmed by model and order requirements.
